2007 FARS Data is not Available

Data Source: FARS & MCMIS (March 2008 data snapshot) (2007 FARS Data is not Available)

The **State-USA Percent Difference** is computed by the following formula:

$$(\text{State Percent} - \text{USA Percent}) / \text{USA Percent}$$

When this value is greater than or equal to 25, the crash statistics for the category will be highlighted in red.

**CAUTION:** Although efforts have been made to provide the most accurate and complete MCMIS Crash data possible, data quality can vary from state to state. Please use caution when interpreting MCMIS crash data.
